 Additional information attached.**SECTION 5 — ACCIDENT DETAILS - DESCRIPTION** Autonomous Mode Conventional Mode

A Google Lexus model autonomous vehicle ("Google AV") in autonomous mode travelling northbound on Clark Ave in Mountain View was involved in an accident. As the Google AV approached the intersection of Clark St. and El Camino Real it activated its turn signal to indicate its intention to make a right turn on El Camino Real. The Google AV came to a complete stop at a red light at the intersection and then began to slowly advance in order to get a better view of cross traffic on El Camino Real approaching from the left to determine whether it was clear to make the right turn on red. A vehicle approaching from behind stopped and then rolled forward and collided with the rear bumper of the Google AV. The approximate speed of the other vehicle at the time of impact was 4 MPH. The speed of the Google AV at the time of impact was below 1 MPH.

There were no injuries reported at the scene by either party. The Google AV sustained minor damage to the rear bumper. The other vehicle sustained minor damage to the passenger side headlight, vehicle hood, and front bumper.

 Additional information attached.**SECTION 6 — CERTIFICATION**

I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

I further certify that I am the authorized Administrator of the program for the above named employer.
